Tien Vo

EXPERIENCE

Wolin Design Group, Orange CA – *Senior Software Engineer*

March 2017 – Present

- Front-end development lead for WDG's flagship product Davinci Unified. Designed from scratch using Angular, Typescript, and Kendo UI.
- After major UI foundations were laid, I transitioned to back-end development for our REST API server using Java and SQL.
- Assigned and managed front-end development to interns and offshore developers.
- Currently I work on integrations our customers request with third-party APIs and EDI transactions while continuing back-end and managing front-end development.

SKILLS, LANGUAGES, TOOLS

Front-end development, back-end development, REST API, Git, EDI transactions, Linux experience, Database experience, SOAP

Typescript, Java, Html, CSS, SQL, C++, XML

IntelliJ, Visual Studio Code
